1. [REDACTED] tipped me off that we might get a complaint from the Society for the Blind in the State of Virginia because we are not planning to have them operate the concessions in our new building. Apparently they have taken this matter up with the Department of Health, Education and Welfare, and H. S. anticipates that we may hear something more about it. I think we can handle this if and when it arises but we could well come in for some adverse publicity.

2. I talked to George Carey, ADO, and Larry Houston concerning a lawsuit in which our [REDACTED] is about to become involved. I approve of paying off not to exceed \$1,500 if this matter could be settled out of court.

3. [REDACTED], Chief of our Communications setup in [REDACTED] was in and we discussed the probable necessity of relocating some of his facilities within the next four years. He said that this matter was under careful study both by Communications and the Division but he thought it was too early to undertake any negotiations for new sites. Part of the problem is a policy determination as to what our future role from this area in the field [REDACTED] is going to be.

4. I talked to Matt Baird about the possibility of [REDACTED] (it has now developed that Larry is going to the FI Staff and I have arranged with [REDACTED] to borrow [REDACTED] for a period of approximately two years) to replace [REDACTED] when he goes to Logistics as Chief of Supply Division on 21 July 1958.
